Mathematica Installation Procedure

After downloading the correct file from the server, run the setup.exe file.

Follow the setup process and when prompted for the license server, enter the IP address 10.2.60.11.

To navigate to the MathLM directory, use the command:

```
[root@compute-01 ~]$ cd /usr/local/Wolfram/MathLM/
```

To start the MathLM service, use the command:

```
[root@compute-01 ~]$ ./mathlm
```
